

I am a concerned citizen that supports, financially, the programming that is heard on K-Love FM 90.5, which happens to be the only radio station that my family of four will listen to. K-Love serves the residents of my listening area in innumerable ways which include uplifting, morally sound, and just plain clean programing that I as a listener never have to worry about. If K-Love were to be replaced by one of these LPFM stations, I would not stop supporting them financially because I believe what they stand for, honesty, decentsy, and strong family values that need to be upheld. If this station is removed and replaced with another, the interest of the public will be ignored. Please do not allow this to take place. Thank you for your time and consideration in this matter.
